### DATA ANALYTICS PROJECTS

#### CMS Marketplace Quality Stars + Federal IDR Outcomes (SQL + Python) | 2026

- Analyzed CMS Marketplace Quality PUF (PY2026, 4,302 plans) and Federal IDR supplemental tables (2025 Q1-Q2)
- Applied Not Rated (NR) exclusion so unrated plans never drag star averages toward zero
- Findings: EPO leads overall stars after NR exclusion (3.24, n=922); IDR provider win share 87.4% to 88.2% Q1 to Q2; Admin at least 1 star above Overall on 48.8% of dual-rated plans (1,531/3,139)
- Reproduced results in SQL and Python on the same public files; explored workflow in DataGlow

#### Nashville Housing Data Cleaning (SQL)

- Cleaned 56,477 Metro sales rows: address recovery, duplicate closings, vacancy standardization

#### Data Professionals Survey (Power BI)

- Dashboard on 630 responses; salary patterns by role and education

#### Airbnb Seattle Analysis (Tableau)

- Joined listings/calendar/reviews; peak weekly revenue and bedroom pricing patterns

#### BMI Health Calculator (Python) · Bike Sales Dashboard (Excel)

- Python screening tool with transparent formulas; Excel buyer segmentation with pivots/slicers

### WORK EXPERIENCE

#### EMS Management and Consultants — Mailroom Specialist (Billing and Claims Operations)
