PROFESSIONAL SUMMARY

Data Analyst with 5+ years embedded inside EMS medical billing and healthcare operations, building technical solutions to real workflow problems. Hands-on with revenue cycle processes, claims analytics, and EHR documentation. Self-built a full analytics toolkit across SQL, Python, Power BI, Tableau, Excel, and VBA. Automated daily billing workflows using Excel macros, cutting manual processing time by 40%. Brings a rare combination of healthcare domain knowledge and analytical execution to every dataset.

CORE SKILLS

Languages and Analytics: SQL, Python, R, Visual Basic (VBA), Microsoft Excel (Power Query, Power Pivot, DAX, Macros)

Visualization and BI: Power BI, Tableau, Microsoft Excel, Exploratory Data Analysis (EDA), Data Cleaning and Validation

Healthcare Domain: Revenue Cycle, Claims Analytics, Medical Billing, ICD-10, CPT Codes, Denial Management, Accounts Receivable, Prior Authorization, HIPAA, EHR/EMR, HL7, FHIR, EDI 837/835

AI and Automation: Microsoft Copilot, Prompt Engineering, AI-Assisted Debugging, GitHub

DATA ANALYTICS PROJECTS

Full interactive portfolio: andre-weissmann-portfolio.pplx.app

[SQL] Nashville Housing Data Cleaning

- Cleaned 56,477 property records in SQL Server, removing duplicate parcels, resolving NULLs, and normalizing date formats. Flagged ~18% of records with data quality issues, producing a production-ready dataset that eliminated a full manual review stage downstream.

[Power BI] Data Professionals Survey Dashboard

- Built a cross-filtered Power BI dashboard across 630 survey respondents, surfacing that Data Scientists earn 2x the salary of Data Analysts and Python is the dominant tool across every role.

[Tableau] Airbnb Seattle Pricing Analysis

- Analyzed 323,346 Airbnb listings across Seattle, identifying that zip code alone accounts for a 3x spread in nightly pricing. Interactive dashboard lets hosts benchmark their listing against neighborhood averages.

[Python] Health Metrics Calculator

- Built a Python health metrics tool using CDC-aligned BMI thresholds and waist-to-hip ratio risk classification. Validates inputs, returns plain-language clinical interpretations, includes preset health scenarios for non-technical users.

[Excel] Bike Sales Business Insights

- Segmentation analysis on 1,026 customer records using pivot tables and dynamic charts, identifying that middle-aged Pacific Region buyers drive the highest purchase conversion rate.

WORK EXPERIENCE

Mailroom Specialist (Billing and Claims Operations) | EMS Management and Consultants

Arlington Heights, IL

February 2021 to Present

- Processed approximately 1,200 insurance claims and payment documents per week, sorting, scanning, and logging PHI documents into billing systems with HIPAA-compliant handling across all patient records.

- Reconciled incoming insurance checks against billing records using Excel, counting and logging daily payment totals to ensure accurate intake reporting for the billing team.
- Built VBA macros in Excel automating daily tape runs and claim validation workflows, cutting manual processing time ~40% and eliminating a class of keying errors.
- Maintained HIPAA-compliant EHR/EMR documentation for thousands of patient accounts with zero PHI findings; sustained billing continuity through a full company acquisition in 2024.
- Used Microsoft Copilot and prompt engineering to debug VBA macro runtime errors, reducing development cycle time and resolving issues that would otherwise require manual code review.

Stock Associate | Walmart Palatine, IL

April 2020 to February 2021

- Maintained inventory accuracy across high-volume daily stock cycles; applied the same data verification and reconciliation discipline that carried into healthcare claims processing.

Team Member | Goodwill Industries International Palatine, IL

April 2017 to April 2020

- Processed and tracked donated goods inventory across intake, categorization, and disposition workflows, maintaining accuracy across high daily item volume.

EDUCATION

Bachelor of Arts, Information Technology Southern New Hampshire University | 2022 to 2024

Associate of Science, Health Information Technology Harper College | 2003 to 2007

Continuing Education: Maven Analytics Lifetime Membership | SQL, Python, Power BI, Tableau, Excel
